## Schwan's Holiday Foods Cheese Recall – Class I

### At a Glance

Schwan's Global Supply Chain, Inc. is recalling two Holiday Foods® products:

- Gourmet Cold Canapes Assortment (item number 4800361).
- Cheddar Cheese Puffs (item number 4800308).

The products were manufactured with cheese sourced from Parkers Farm Acquisition, LLC. The Parkers Farm cheese is subject to a recall announced by the Food and Drug Administration because it may be contaminated with Listeria monocytogenes. We are unaware of any reported illnesses.

### The Issue

Consumption of food contaminated with Listeria monocytogenes can cause listeriosis, an uncommon but potentially serious disease marked by fever, severe headache, neck stiffness, and nausea.

### Are You Impacted?

US Foods' number one priority is to notify any customer impacted by a recall. Our distribution centers affected by this recall have already begun to contact affected customers. If you purchased a recalled product from us, you will be contacted shortly, or have already been contacted. If you purchased products elsewhere, use the information above to check with your supplier.

### What You Can Do

- Avoid eating or serving any recalled products.
- Do not use any of these products as ingredients in recipes, even if cooked.
- Follow instructions to discard or return recalled product.
- Discard recalled products in a manner that prevents others from eating them.
- Persons who think they may have become ill with a food-borne illness should consult their health care providers.
- Review your own internal recall procedures; does your staff know what to do if they receive notice that a product is being recalled? Typically only specific lot codes are affected.
- Purchase all of your supplies from a company with a robust recall program that can keep you aware of recall and food safety issues.
- Help us serve you better. Provide your distribution center with a valid e-mail address so we may provide you with recall information faster.
