HUMMUS

As authentic as any Middle Eastern recipe with chickpeas and imported tahini swirled among our unique blend of spices

Designed and created for chefs with high standards

Our signature hummus with all-natural, fresh ingredients – and teeming with bold flavors – wins and wows as a spread, sauce or dip.

Product Inspiration

To enjoy hummus as authentic as ours, you'd have to travel to the Middle East and trek to a remote village. So, we've made it easy for you. Prepared from the freshest ingredients in small batches, our hummus boasts the cleanest label around. We start with ground chickpeas and then add the finest imported tahini and a special blend of flavors and spices, including hints of garlic and cumin that are uniquely ours. It's a taste you'll only find from US Foods.
