

PREMIUM GREEK YOGURT CHEESECAKE AND PREMIUM BLACK CHERRY & RICOTTA CHEESECAKE

Individually-portioned desserts are being offered on menus 40% more often as compared to five years ago. Customers are more likely to return to a restaurant that features a dessert they crave. So, we have the perfect temptation – individual, old-world style cheesecake.

Sweet Indulgence in Every Bite

Devonshire® offers irresistible taste in a wide selection of classic and contemporary desserts made with great care and attention. Each has fresh, delicious ingredients for the flavor and texture of a handcrafted, artisan-quality treat.

Product Inspiration

Both cheesecakes are fully baked in buttery, graham cracker crusts – just plate them frozen and thaw in the fridge. They're ready to serve as is or can be enhanced with your own garnish or sauce. The melt-in-your-mouth flavor your guests experience will serve you well, building both average ticket and repeat-visit customer loyalty.

Premium Greek Yogurt Cheesecake

Influenced by the huge Greek yogurt trend, this cheesecake is made with 2% Greek yogurt and real cream cheese. It's hand-decorated with a Greek yogurt mousse and white chocolate curls.

Premium Black Cherry & Ricotta Cheesecake

For our ricotta version, flavorful black cherry filling is swirled through the ricotta cheese for outstanding presentation, mouth feel and a delicious, rich cherry finish.
