Patuxent Farms®

With authentically fresh flavors, Patuxent Farms meats are wholesomely delicious from beginning to end. You can always count on the finest, freshest quality, taking you back to the farms and fields.

Product Inspiration

So how do you want to serve your buffalo chicken? Patuxent Farms has three flavorful options:

- Tenderloins, which are the most premium cut of the chicken
- Chunks (aka boneless wings), which are a trendy alternative to higher-priced traditional bone-in wings
- Filets, which account for 66% of all chicken served in restaurants

Darker brown in color with a buffalo orange hue, our buffalo chicken is the perfect balance of hot sauce, vinegar and notes of butter. Your customers will really warm up to it.
