CHICKEN FOR OSSO BUCO

Tender, all-natural dark-meat chicken imparts greater flavor than a chicken breast and delivers more meat than a chicken wing

Simply ready to add your finishing touch

Osso buco, the classic braised veal shanks, takes on a new shape with our chicken drumstick for what we're calling the new chicken alternative.

Product Inspiration

A classic of Milanese cuisine, osso buco, is thought to have originated in a farmhouse in the late 1800s. Now a favorite worldwide, its "melt off the bone" tenderness results from several hours of attentive simmering.

Preserving the hallmark look of a veal shank standing on end, the drumstick will stand out on your menu with our twist on a classic. Try Tuscan rub or – for those who enjoy creating signature dishes – traditional flavor.

Ideal Use

From casual to fine dining restaurants, our chicken for osso buco brings versatility and flavor to menus:

- Small-plate selection
- Deep fry and serve "chicken wing" style
- Gourmet meal option
- Catering events
- College/university cafeteria

Features/Benefits

- Made with Distinction: hand cut and trimmed for consistent sizing, with bone exposed for upscale appearance
- Performance: 3-inch drumstick stands upright on plate
- Farm to Fork: all-natural with no pump or brine; minimally processed, vacuum-packed and frozen at plant
- Cost Savings: dark meat of chicken is more cost effective than white meat or veal
- Labor Savings: ready to cook

Food Fact

Osso buco is Italian for "bone with a hole" (osso = bone, buco = hole), a reference to the marrow hole at the center of the cross-cut veal shank.
