

# TRENDVIEW<sup>®</sup> 360 CONTROLS SPENDING THROUGH DATA-DRIVEN INSIGHTS

## HOW IT WORKS

An online tool designed to pinpoint what drives your food and supply costs, helping you make smarter, data-driven decisions.

- Track and optimize US Foods<sup>®</sup> participation
- Improve contract compliance and reduce unnecessary spending
- Real-time insights enable proactive cost-saving adjustments

## SUCCESS STORY

The challenge: A major nonprofit healthcare system in the Southeastern U.S. faced challenges with:

- Rising costs
- Inconsistent spending per patient day (PPD)
- Contract compliance
- Managing budget

**THE SOLUTION:** The healthcare operation implemented Trendview 360 with the help of a US Foods Business Solutions Specialist.

## KEY STRATEGIES:

- Track and analyze spending
- Regular data reviews to optimize procurement

## KEY RESULTS:

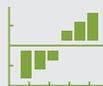

Facilities with increased US Foods purchase participation saw a 11% decrease in PPD.

Compliance improved from 92% to 95%, reducing spend and improving budget adherence.

Despite fluctuating spend, facilities maintained or reduced PPD

Sustained savings since implementation.
