# Brand Mark

---

Integral to the Pacific Jade logo is a pair of chopsticks, an iconic symbol of Asian cuisine; the angular and modern Gotham font suggests the efficient and clean presentation that is associated with this food style. Product names are set in Chinese and Japanese brush lettering, adding a traditional accent.

# Photography

Pacific Jade® food imagery is light and refreshing. Asian accents and details are subtle and authentic, and should not draw focus away from the food.

Delicious food and professional kitchen photography is a very important part of every brand when designing collateral and print ads. It is essential that it look appealing and fresh. Food may be plated on white or on Asian-styled ceramics. Pay close attention to food styling; the food should look like it was prepared in a restaurant by an experienced chef, not a home-cooked meal.

Pacific Jade's images should be photographed with a short depth of field for a soft-focus background. This effect may be achieved in post. Lighting should be crisp and clean.

## Quick Tip

---

When selecting imagery or when planning a shoot, opt for high quality photography with simple propping and ultimate appetite appeal.
