# Brand Statement

Thirster® is a full line of refreshing beverage choices to satisfy every thirst, committed to taste and quality in ready-to-serve products.

---

**Brand Statement** defines the products and benefits of the brand. It's generally used on websites, sell sheets, guides and any promotional pieces that showcase several items of that brand.

---

## Brand Voice

Whether it's water, juices or mixes, Thirster® offers refreshing beverages that are pleasing to every palate. To tell that story, the tone is "sell with a smile," to make it appropriate and engaging. Three to four descriptive sentences paint a picture of the dining experience each product creates. The "sell" is a description of product attributes. The "smile" is a slice-of-life statement that lightens the mood of the copy in an attempt to endear the brand or product to the customer.

---

## Brand Mark

# Photography

Delicious food photography is a very important part of every brand when designing collateral and print ads.

Photographed food on a white background with minimal propping presents Thirster® products in their purest form. Bring the photography to life by shooting from above and arranging it in a fun and playful manner.

Thirster photography is about simple, beautiful details.

Food should be photographed with bright, airy lighting and retouched to eliminate shadows and distracting imperfections. When selecting imagery or when planning a shoot, opt for high-quality photography with simple

props and ultimate appetite appeal. Cutting boards, utensils, raw foods, produce, chips, etc., will achieve that effect. Shoot photography with short depth of field for a soft-focus background.
