Brand Statement

Thirster® Beverages a commitment to taste & quality. Thirster beverages deliver outstanding quality and taste for all of your needs. With many delicious flavors to choose from, Thirster has a wide selection that your customers will appreciate.
Thirster Brand Voice

Whether it’s water, juices or mixes, Thirster offers refreshing beverages pleasing to every pallet. To tell that story, the tone is “sell with a smile” to make it appropriate and engaging. 3-4 descriptive sentences paint a picture of the dining experience each product creates. The “sell” is a description of product attributes. The “smile” is a slice-of-life statement that lightens the mood of the copy in an attempt to endear the brand or product to the customer.
Brand Mark

THIRSTER®

The Thirster logo is the brand name in bold round type that resembles liquid droplets.
Protected Space & Minimum Size

Clean white-space and minimal layout elevate the quality-perception of Thirster. In order to maintain the integrity of this high-quality brand across all applications, it is important to abide by the rules that are laid out in these guidelines. This starts with the protected space and minimum size. The logo should appear no smaller than .75 inch in size (without the tag line) and no smaller than 2 inches (with the tagline) in any application. Always respect the clear space around the logo; it should always measure at least half of the diameter of the logo.

- Do not add a drop shadow.
- Do not rotate the logo.
- Do not skew.
- Do not disproportionately scale.
- Do not remove or change the graphics elements.
- Do not place on top of busy photography or background color.

Photography

Delicious food photography is a very important part of every brand when designing collateral and print ads.

Photographed food on a white background with minimal propping presents Thirster products in their purest form. Bring the photography to life by shooting from above and arranging it in a fun and playful manner.

Thirster's photography is about the simple beautiful details.
Beverage photography is a very important part of every brand when designing collateral and print ads. It is essential that it look appealing and fresh. Drink imagery should look like it’s being served in a restaurant, not a home-cooked meal.

Always choose the freshest and least-processed imagery in order to reinforce the quality message. Drinks should be photographed with bright, airy lighting and retouched in order to eliminate shadows and distracting imperfections.

Images are illustrative of visual styling, and are not indicative of product categories.
