HELP ENHANCE YOUR FOOD SAFETY PROGRAM

By: Ruth L. Petran, PhD
Vice President, RD&E Food Safety & Public Health

As a restaurant owner or manager, you've taken steps to train and encourage employees to practice the best procedures to ensure your restaurant is storing, preparing and serving food that is high quality and safe. Yet it is important to remain vigilant and continually enhance your culture of food safety.

As you work toward making food safety practices simple and part of your culture, consider implementing some of these **BEST PRACTICES**:

A properly stocked first aid cabinet is required in all foodservice operations.
SEE PAGE 59

Proper dishwasher temperatures help ensure that dishes are ready for serving.
SEE PAGE 44

Regular sanitizing with proper products is essential for food safety.
SEE PAGE 46

Control costs with Daydotts day-of-the-week Portion Bags.
SEE PAGE 30

Color-coded cutting boards and tools help prevent cross contamination.
SEE PAGE 32

According to the U.S. Centers for Disease Control and Prevention (CDC),
THE TOP CONTRIBUTING FACTORS to foodborne illness include:

Improper holding

Poor personal hygiene

Inadequate cooking

Contaminated equipment/
environment

Ice handling supplies from Ecolab® help
maintain superior beverage quality.
SEE PAGE 43

Daydots™ Label Guns are ideal for
quickly labeling food deliveries.
SEE PAGE 26

Continually
enhance your
CULTURE OF
FOOD SAFETY

Proper thermometer use is the best way to
verify that food has been cooked properly.
SEE PAGE 36

Daydots Labels help you easily identify which
foods need to be used or discarded.
SEE PAGE 23

Taking this integrated approach and committing to staff training will help you continue to develop your culture of food safety and **keep your guests coming back.**

HELP ENHANCE YOUR FOOD SAFETY PROGRAM

Practice FIFO

Daydots Labels allow you to easily practice the First-In, First-Out (FIFO) method of food rotation, a principle that focuses on having foods that are received or prepared first being served first. This helps to maintain quality and minimize food waste.

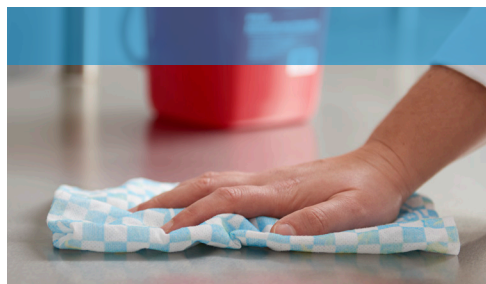

Make hand washing convenient

Proper hand washing can be one of the best preventive measures that you institute in your operation. Making hand washing easy for employees and incorporating it into the flow of food preparation can help you ensure that everyone has proper hand hygiene top of mind.

Ensure proper cooler temperature control

Regularly verifying your cooler's internal temperature is critical. Setting your refrigerator to the proper temperature — the refrigerator should be at 41°F (5°C) or below and the freezer at 0°F (-18°C) or below — is a first step. Among the factors responsible for outbreaks of foodborne illness, improper holding stands near the top of the list. Fortunately, it is a practice that can easily be corrected.

Clean, clean, clean... and sanitize

Your strongest defense for food safety is a good offense, which means instituting regular cleaning with the proper products.

Our products and solutions
help you **serve with confidence**
and help minimize the risk of a foodborne illness outbreak.

When it comes to food safety, there is no room for error. Your success depends on delighting your guests and managing your risks. Ecolab products help you do both. You'll have peace of mind knowing that Ecolab is by your side, offering a total food safety program that helps you maintain a safe, clean and efficient environment in your kitchen and across your entire operation.

PROTECT YOUR BRAND

It can take up to **two years** or more for a company to recover from a food safety incident, and some never recover

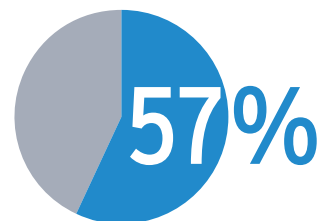

PROTECT YOUR BUSINESS

One food safety related incident can cost up to **\$75,000**¹

PROTECT YOUR GUESTS

57%
of people are concerned about food safety when eating out²

PRESENTING
ECOLAB FOOD SAFETY SOLUTIONS

FOOD SAFETY IS CRITICAL TO OUR SUCCESS

Welcome to the new Food Safety Solutions Catalog from Ecolab!

We are proud to partner with US Foods on a variety of products to help the US Foods customers run their business safely and efficiently. These products will help you in a wide range of food/employee safety areas, such as food rotation, food preparation, temperature monitoring, beverage quality, warewashing, kitchen surfaces, floors and safety.

Be sure to check out the latest new products featured in the Food/Employee Safety catalog!

If you have any questions, please contact your US Foods representative.

Ecolab prides itself on providing reliable products and excellent service. We are excited about our partnership and look forward to working with you as your Food Safety Partner.

Scott Latimer
Vice President and General Manager,
Ecolab Food Safety Solutions

Ecolab Solutions work together to enhance your culture of Food Safety

SAFE FOOD

Food Safety program elements considered critical by most health code jurisdictions.

Food Rotation

Aid your employees in [following food rotation guidelines](#) with Daydots™ food labeling solutions.

ECOLAB FOOD SAFETY SOLUTIONS

**Daydots Food Rotation Labels can help
reduce food waste, save labor and maintain food quality.**

Why Daydots Pre-Printed Food Rotation Labels

Reduce Food Waste

Easy-to-read labels ensure that foods are used before they expire or spoil.

Save Labor

Printed labels speed up the food labeling process so employees can do other things.

Maintain Food Quality

Efficient labeling keeps food quality high and ensures health code compliance.

Genuine Daydots™ Food Rotation Labels

In 1985, Daydots introduced the first ever color-coded, day-of-the-week food rotation labels to the foodservice industry. Since then, the day-of-the-week food rotation colors have become an industry standard.

Other companies make food rotation labels, but only Ecolab offers genuine Daydots — the label that pioneered the industry.

Genuine Daydots...
look for it
in the core.

Serve Only the Freshest, Safest Food with Daydots Food Rotation Labels

Daydots labels allow you to easily practice the First-In, First-Out (FIFO) method of food rotation, a principle that focuses on having foods that are received or prepared first being served first. This helps ensure that you serve fresh, quality food and minimizes food waste.

What Information is Required on Food Rotation Labels?

Employees are not always clear on how to label food properly or what information is required. Daydots Food Rotation Labels eliminate guesswork and mistakes by making it easy for employees to fill out the necessary information including:

Item PRODUCTO	Chicken	daydots	Item/food names
Prep Date FECHA DE PREPARACION	9-21 2:30 AM		Preparation dates and times
Use By FECHA PARA DESECHAR	9-23 2:30 AM		"Use-By" dates
Shelf Life CADUCA EN	3 HRS / 3 DAYS	Empl. AD EMPLEADO	Employees
	Mgr. RF GERENTE		
	MON TUE WED THU FRI SAT SUN		Shelf Life

SUPERMOVABLE

What Day Should be Used?

If today is...	1 day shelf life	2 day shelf life	3 day shelf life
MONDAY	MON LUNES	TUE MARTES	WED MIÉRCOLES
WEDNESDAY	WED MIÉRCOLES	THU JUEVES	FRI VIERNES

Genuine Daydots...
look for it in the core.

Why Universal Labels?

Daydots Universal Food Rotation Labels are the perfect choice if you want to use just one label for all your food rotation needs. Choose your preferred material - **Dissolvable** Paper Labels that dissolve away in the dishmachine, or **DuraLabel™** Removable Plastic Labels that easily peel off before or after washing - and you're ready to go!

- Eliminates the need to have a label for each day of the week
- Allows your staff to capture critical information necessary for health code compliance
- Large, easy-to-read fields that make food rotation simple

THE HIGH PRICE OF AN INFERIOR FOOD ROTATION PROGRAM

It's a lot more than you think.

Regulatory Compliance

How much have you paid in fines and penalties?

Food Waste

How much food is wasted due to improper rotation?

Risk

What's the cost of a lawsuit due to a preventable foodborne illness?

Lifetime Value of a Customer

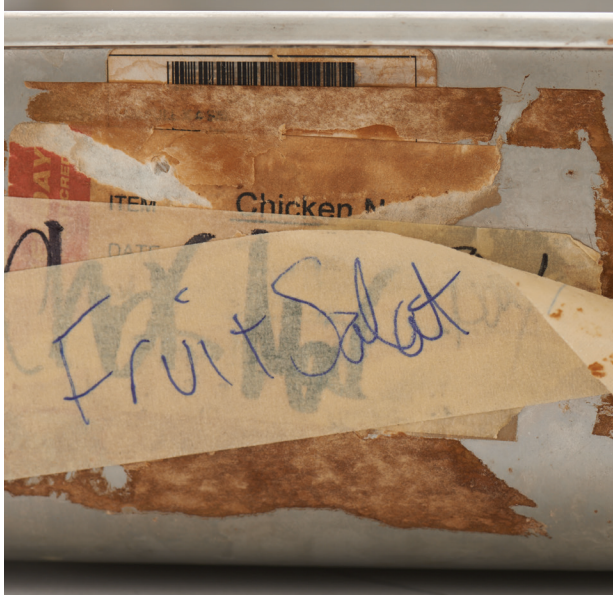

What's the lifetime value of a repeat customer who leaves after getting sick from spoiled food?

Your Brand

What's the cost to your brand if the public perceives that food safety is not important to you?

Lost Revenue

How much has an inferior food rotation program cost you?

Masking Tape... A Sticky Situation

Some foodservice operators use masking tape for food rotation because they think it is a less expensive solution. The reality is that masking tape:

- Is difficult to control
- Often drives up actual costs
- May result in difficult-to-read, inconsistent labeling

Most significantly, the adhesive residue left on pans by masking tape increases the risks of a health code violation.

Why is Masking Tape Adhesive Residue a Health Code Violation?

It's because of the cross-contamination risk that tape adhesive residue creates.

Sticky residue can harbor bacteria, and the cross-contamination risk occurs when adhesive residue on the outside surface of a pan contacts the clean inside surface of another pan when the pans are stacked.

This can result in a critical violation if observed by the health inspector.

Which label material is best for your application?

Daydots DURALABEL™

Plastic Food Rotation Labels

are made from a dishmachine safe plastic that will not come off until you want it to, leaving no residue behind.

For use in WET environments

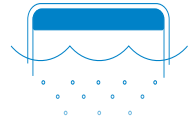

Great for almost every labeling application
Label directly on metal pans, and plastic containers
Works near steam or steam tables, in coolers and freezers

Daydots DISSOLVABLE

Paper Food Rotation Labels

dissolve completely in water at any temperature.

For use in COOL, DRY environments

Effective on any reusable container
Adheres to metal, glass, plastic and lexan containers

Daydots SUPERREMOVABLE™

Paper Food Rotation Labels

are paper labels that are easily removable before washing or water contact.

For use in DRY environments

Great for almost every labeling application
Used on a variety of surfaces in a wide range of temperatures

Daydots COLD TEMP

Permanent Food Rotation Labels

are paper labels that have permanent adhesive.

For use on DISPOSABLE packaging

Perfect for cardboard boxes of product stored in the freezer. Label on plastic wrap, film, foil or paper
Use in dry storage, walk-in coolers and freezers

PREPNPRINT™

Print Your Own Daydots

Save Time

Ensure Accuracy

Simplify Labeling

"I think it saved us more than two hours per day."
Mark — Line Cook, New York City

- Prints food rotation labels on demand
- Saves time spent handwriting labels
- Ensures labeling consistency
- Provides accurate product shelf life on every label
- Reduces food waste
- Allows you to manage your shelf life online

ACCURATE

Is that a one or a seven? Sloppy handwriting can lead to serving food that is not fresh. Stop the guesswork. Let Prep-n-Print print clear, legible, consistent labels every time.

SMART

When you log in to the Prep-n-Print website, you have the freedom to update your menu and train your staff with ease.

CONSISTENT

With Prep-n-Print, your labels automatically contain the correct hold-time calculations with all of the information you need to stay compliant 100% of the time.

"I can keep all my shelf life info online and then download it to the printer in a matter of seconds."

Eric — GM, Chicago

ECOLAB FOOD SAFETY SOLUTIONS

Using thermometers help ensure that foods are prepared and held in safe temperatures.

ECOLAB POCKET DIGITAL THERMOMETER NSF

This simple, affordable thermometer is a great option for those looking to make the move from a bi-metal to a digital thermometer. -50° to 392°F/-45° to 200°C

Features:

- ▲ Accuracy +/- 2°F
- ▲ Easy one-button operation
- ▲ On/off switch
- ▲ Water resistant

ECOLAB POCKET DIAL THERMOMETER NSF

0° to 220°F

Features:

- ▲ Accuracy +/- 2°
- ▲ Quick response time
- ▲ Calibration tool on the sheath
- ▲ 5" stem, 1" dial

11" X 17" POSTER: TEMPERATURE DANGER ZONE

FROM THE FDA FOOD CODE:

4-302.12 Food Temperature Measuring Devices.

(B) A TEMPERATURE MEASURING DEVICE with a suitable small-diameter probe that is designed to measure the temperature of thin masses shall be provided and readily accessible to accurately measure the temperature in thin FOODS such as MEAT patties and FISH fillets.

PRESENTING
ECOLAB FOOD SAFETY SOLUTIONS

When placed between the tines of a fork and loaded in a dishmachine, T-Sticks can indicate if your machine water is reaching the desired temperature. They will turn dark if the proper temperature is achieved.

ECOLAB T-STICK TEMPERATURE SENSORS

T-Sticks are single-use, waterproof thermometers used to test dish machine temperatures or to quickly check whether meat, fish or poultry are thoroughly cooked and safe to eat. The tip of the T-Stick changes from white to dark, indicating a safe temperature has been reached.

140°F

Use for hot holding

160°F

Use for commercial dishwashers

165°F

Use for Poultry

ECOLAB SANITIZER TEST STATION

Ecolab's Sanitizer Test Station helps you avoid code violation fines by storing your sanitation test strips in a visible, cool, dry place that is away from food. Because the Sanitizer Test Station can be hung within arm's reach, it promotes frequent testing of solutions to ensure that you are compliant.

SANITIZER TEST STRIPS: QT-10

Dispenser contains one 15' roll of test paper and a color comparison chart with match points at 0, 100, 200, 300, and 400 ppm. Measures concentration of quaternary ammonium from 0-400 ppm. Works best with neutral pH quaternary ammonium sanitizing solutions.

SANITIZER TEST STRIPS: QT-40

Dispenser contains one 15' roll of test paper and a color comparison chart with match points at 0, 150, 200, 400, and 500 ppm. Designed for broad spectrum quaternary ammonium with targets of 150-400 ppm. Works best with neutral pH quaternary ammonium sanitizing solutions.

ANTIMICROBIAL FRUIT AND VEGETABLE TREATMENT TEST STRIP

Pack of 100.

CHLORINE TEST STRIPS: TOTAL 0-200PPM

Papers test for presence of free chlorine in solution. Color chart on label shows match points at 10, 50, 100, and 200 ppm. Pack of 100 strips.

CHLORINE TEST STRIPS: FREE 0-300PPM

Measures free (available) chlorine between 0-300 ppm. Color chart on label shows match points at 0-25-50-100-200-300 ppm. Pack of 100 strips.

ECOLAB HI-TEMP TOOL STARTER KIT

Ecolab's Hi-Temp Tool Starter Kit contains what you need to clean fryers and other kitchen equipment faster, easier and safer.

Contents include:

- ▲ One Ecolab Hi-Temp Handle
- ▲ One Ecolab Hi-Temp Detail Brush
- ▲ One Ecolab Hi-Temp Double-Sided Brush
- ▲ One Ecolab Hi-Temp Pad Holder
- ▲ One Box of Ecolab Hi-Temp Pads

HI-TEMP DETAIL BRUSH

L-shaped, thin profile allows head to fit in between heating tubes and coils where soils accumulate.

ECOLAB HI-TEMP HOLDER AND PADS

Fitted pad works to remove buildup and is easily removed for replacement.

HI-TEMP PAD HOLDER

HI-TEMP PADS

ECOLAB HI-TEMP DOUBLE-SIDED BRUSH

Top mounted bristles, combined with the angled head help access hard-to-reach areas.

ECOLAB HI-TEMP HANDLE

Ergonomic 22.5" handle designed with nonslip hand-stop and grip ball helps keep the user a safe distance from hot surfaces, liquids and mitigates accidents.

ECOLAB GRIDDLE POLISHING PAD HOLDER

DURA LOC™ It's Like Nothing You've Ever Seen Before

To get the job done right, you need the proper tools. That's why Ecolab® brings you a revolutionary new line of long-lasting, interlocking kitchen floor cleaning tools. DuraLoc tools and Ecolab floor cleaners work together to give you the ultimate clean in less time.

DURALOC 54" STRAIGHT HANDLE, OVERMOLD

Constructed of lightweight aluminum, this extremely durable handle features a sturdy plastic overmold for superior wear resistance. Features a rounded, ball-shaped top point that provides a more comfortable, ergonomic grip and snaps easily into the DuraLoc Tool Holder Hanging System.

DURALOC 54" STRAIGHT HANDLE, LIGHTWEIGHT

Constructed of lightweight aluminum, this durable handle provides a lightweight alternative for faster-paced operations such as quick service restaurants. Features a rounded, ball-shaped top point that provides a more comfortable, ergonomic grip and snaps easily into the DuraLoc Hanging Tool Holder System.

DURALOC UNIVERSAL INSERT HOLDER

The Universal Insert Holder screws onto DuraLoc Handles, creating a sturdy two-point connection with a wide opening and robust threads. Its arched design equally distributes stress across the top of the tool head inserts. Use only with DuraLoc broom, squeegee and mop inserts.

GREEN DURALOC SQUEEGEE INSERT, MOSS FOAM

Moss Foam Squeegee Insert slides easily and locks securely into the DuraLoc Universal Insert Holder. Frame features a sturdy and durable polypropylene construction. Pair with DuraLoc Overmold Handle or DuraLoc Lightweight Handle.

Requires
DuraLoc Universal
Insert Holder

GREEN DURALOC SQUEEGEE INSERT, RUBBER

Rubber Squeegee Insert slides easily and locks securely into the DuraLoc Universal Insert Holder. Does not harbor bacteria or listeria. Frame features a sturdy and durable polypropylene construction. Pair with DuraLoc Overmold Handle or DuraLoc Lightweight Handle.

Requires
DuraLoc Universal
Insert Holder

GREEN DURALOC ANGLE BROOM INSERT

Designed for superior performance and extended, rigorous use, the Angle Broom Insert features an ergonomic shape that prevents uneven wear. The polyester bristles last longer than traditional bristles, offer improved bristle memory, and provide enhanced cleaning performance. Insert slides easily and locks securely into the Universal Insert Holder.

GREEN DURALOC OUTDOOR SWEEP

The perfect tool for heavy-duty sweeping jobs including parking lots and outdoor walkways, the DuraLoc Outdoor Sweep features durable polyester bristles that last longer than traditional polypropylene bristles. The wide surface area allows for faster, efficient sweeping of large spaces. Sturdy A-frame design provides superior durability.

GREEN DURALOC BLENDED MOP 24 OZ.

The Blended mop provides the perfect balance of cleaning and value for everyday use. The combination of fibers produces a mop with both good absorption and durability.

GREEN DURALOC GREASE RELEASE MOP

The DuraLoc Grease Release mop provides significantly improved absorption and release of greasy liquids compared to conventional mops. The patented chemical treatment helps foodservice operators remove more grease from their kitchen floors for cleaner, safer surfaces with fewer slips and falls, less mop odor and a longer life.

DURALOC MOP BRUSH

The DuraLoc™ Mop Brush takes mopping to a whole new level. It attaches easily to the universal insert holder over the mop. Simply flip the mop over to scrub tough spots.

GREEN DURALOC STARTER KIT

Starter Kit contains: 4 Handles, 3 Universal Insert Holders, 1 Tool Holder System with additional Single Hanger, 2 Mop Inserts, 2 Squeegee Inserts, 1 Deck Brush, 1 Big Dipper, 1 Angle Broom, 1 Mop Brush and 1 Instruction Sheet. Mop Bucket and Outdoor Sweep not included.

GREEN DURALOC DECK BRUSH

Strong polyester bristles and extra- stiff center bristles. Requires DuraLoc Handle. Use with optional Big Dipper.

DURALOC BIG DIPPER

The Big Dipper is a revolutionary accessory to the DuraLoc deck brush that helps ensure correct dispensing of floor cleaning chemical during the deck brushing process. Dunk the deck brush into the front chemical bucket and the Big Dipper fills automatically with cleaning solution. As the brush is scrubbed back and forth, the Big Dipper applies and agitates the floor cleaner in one simple step, saving time and helping ensure proper procedures are followed.

The Big Dipper™ — It's a Better Way to Deck Brush

The Big Dipper is a never-before-seen accessory fitted to the deck brush that makes dispensing solution revolutionary.

When the deck brush is dunked into the front chemical bucket, the Big Dipper fills automatically with cleaning solution. It applies and agitates the floor cleaner in one simple step, saving time and ensuring proper procedures are followed.

The Big Dipper™ fills automatically with cleaning solution. It applies and agitates the floor cleaner in one simple step, saving time and ensuring proper procedures are followed.

Strong polyester bristles scrub out tough spots

Extra-stiff center bristles make it easier to scrub stains out of grout

Solution dispenser ensures the correct amount of solution is applied

PRESENTING
ECOLAB FOOD SAFETY SOLUTIONS

ECOLAB DUAL CAVITY BUCKET

Molded divider keeps the cleaning solution separate from the soiled water, so that it is not reapplied onto the floor.

- ▲ Plastic injection molded divider
- ▲ Durable down-press wringer with large opening
- ▲ Heavy-duty construction
- ▲ Extended non-marking casters control floor shadowing while providing a firmer, stable base
- ▲ No removable pieces to misplace or break
- ▲ Large capacity for big jobs
- ▲ Durable for commercial use

Zone Isolation

Zone Isolation is the practice of using different-colored cleaning tools for each area of the restaurant. This helps to prevent the spread of grease or germs from one area to another. It can also help minimize the possibility of a slip and fall.

DuraLoc is available in five color options to help you start your zone isolation program. This ensures the tools are used in exactly the right place, keeping your environment free of unnecessary contaminants.

Ecolab's Advanced Floor Care Tools include a comprehensive line of quality floor cleaning products.

ECOLAB 17 OZ. GREASE RELEASE MOP

This mop has been proven to significantly improve floor traction by absorbing nearly twice as much soiled liquid and also releasing more grease during each rinse. The patented yarn uses a unique blend of fibers that resist oil build-up, outlast cotton mop heads, and reduce drying time by up to 50%.

- ▲ Absorption technology allows floors to dry 50% faster, reducing labor costs
- ▲ Absorbs and releases nearly twice the amount of liquids as conventional mops
- ▲ Reduces conditions for potential slip and fall occurrences by improving floor traction
- ▲ Fits interlocking handles
- ▲ Lasts two to three times longer than a standard mop when cared for properly*
- ▲ Minimal re-depositing of soiled liquids on floor surface
- ▲ Looped, banded end
- ▲ Twice as efficient as conventional mops

*Always launder using a mesh bag and a detergent solution at a low speed for a minimum of 5 minutes. Rinse thoroughly in warm water and air-dry.

ECOLAB FIBERGLASS INTERLOCKING HANDLE

- ▲ 54" length
- ▲ Superior resistance to wear, bending, or breakage
- ▲ Color-coded zone-isolation

ECOLAB 54" ALUMINUM INTERLOCKING HANDLE

- ▲ Extra light weight
- ▲ 54" length
- ▲ Silver/white handle can be used with any color tool head for zone-isolation

CAREPOD ESSENTIALS FIRST AID CABINET

The Essentials First Aid kit comes fully stocked with all the required first aid products plus additional products specifically intended for food service operations. The innovative cabinet design and user-friendly maintenance and reordering tools make it easy to manage your first aid program and stay compliant.

CAREPOD FIRST AID STORAGE CABINET

The optional lockable storage cabinet allows you to control access to excess inventory and optimal products, like comfort medicines, which are often the target of theft.

ECOLAB SMALL FIRST AID KIT W/METAL CASE

This kit meets the needs of common injuries in commercial kitchens, restaurants, and fast food establishments. The kit has enough product to render first aid up to eight people.

ECOLAB MEDIUM FIRST AID KIT W/METAL CASE

Help protect your employees with this complete, wall-mountable, first-aid kit. The kit has enough product to render first aid up to 24 people. Meets FDA's Good Manufacturing guidelines and OSHA requirements. (State and local ordinances may vary). Does meet current ANSI/ISEA Standards.

ECOLAB LARGE FIRST AID KIT W/METAL CASE

Help protect your employees with this complete, wall-mountable, first-aid kit. The kit has enough product to render first aid for up to 50 people. Meets FDA's Good Manufacturing guidelines and OSHA requirements. (State and local ordinances may vary). Does meet current ANSI/ISEA Standards.

What regulatory agencies set first aid standards?

- OSHA (Occupational Safety and Health Administration) enforces workplace regulations based on best practice guidelines (including the ANSI/ISEA first aid standard).
- ISEA (International Safety Equipment Association) writes the "Minimum Requirements for Workplace First Aid Kits and Supplies" standard.
- ANSI (American National Standards Institute) oversees the development and use of standards in the U.S.

What are the first aid requirements for restaurants?

According to OSHA regulations, every restaurant is required to have a first aid kit easily accessible, and it must be stocked with specific supplies.¹

What is the ANSI/ISEA Standard?

- The ANSI/ISEA Z308.1 standard establishes minimum performance requirements for first aid kits and their supplies that are intended for use in various work environments, including food service operations.²
- The standard classifies first aid kits based on the assortment and quantity of first aid supplies intended to deal with most types of injuries and sudden illnesses encountered in the workplace, including major wounds, minor wounds (cuts and abrasions), minor burns, sprains and strains, and eye injuries.

1 OSHA Code of Federal Regulations, Section 29 CFR 1910.151 and 1910.151 Appendix A.

**EPA Registered disinfectant effective against Feline calicivirus (surrogate for Norovirus/Norwalk virus)

CAREPOD BIOHAZARD RESPONSE CABINET

The CarePod Biohazard Spill Response Cabinet contains all the PPE and supplies needed to help you comply with the OSHA Bloodborne Pathogen standard and the 2017 FDA Food Code. Comes stocked with 2 Biohazard Spill Clean-Up Kits plus 2 additional bottles of TB Disinfectant Cleaner for larger spills. Effective against a wide range of pathogens including Norovirus, HIV-1, and Viral Hepatitis Types A, B, and C.

HONEYWELL® EYEWASH KIT

The green supplemental station makes for easy identification. The sterile, soothing saline wash can neutralize varying qualities of acids or caustics depending upon their concentration. Bottles are date-coded and have non-replaceable snap-off caps to help ensure sterility.

PACK OF 2 32 OZ. REFILL BOTTLES

ECOLAB GHS COMMUNICATION STATION

Ecolab's GHS Station provides an easily recognizable location for storing safety data sheets (SDS), training aids, SDS documentation and OSHA required employee training log sheets. It includes written and DVD training guides.
