PATENTED DIVIDERS FOR USE WITH MEYERPAK™, MEYERBASIC™, MEYERWINDOW™ AND MEYERTRAY™

TACO0010

We call this our “Taco” divider! Coated divider folds to hold three tacos (or other items) in an upright to limit fillings falling out. Kraft divider fits, looks best in #8 kraft MeyerPak, especially useful for keeping items from sticking together.

JDIV0010

Coated divider folds to create two equally sized cells – looks best in kraft box. Fits all boxes sized #2, #3 and #4. Keeps hot or saucy items separated by flavor, temperature or wet from dry, yet creates a cohesive look in one box. Perfect for that sandwich or burger\ fries or rings combo!

BDIV3000

Coated divider folds to create three cells, 60-30-30, to hold various elements of a full meal. Looks best in black or white box. Fits all boxes sized #2, #3 and #4. Keeps hot or saucy items separated from cold or dry, creates cohesive look in one box. Also called our “Bento divider”.
