## Sanitizing and Disinfecting Chlorinated Disinfecting Tablets **FROM ENTRY TO EXIT**

The single chlorinated tablet is one of the lowest cost EPA registered sanitizers or disinfectants on the market today. The tablet may be used to clean and sanitize or disinfect. The neutral pH, is surface friendly on all hard surfaces and has a chlorine pool like fragrance, that tends not to irritate the respiratory system. Use it from **Entry to Exit** in restaurants, commercial buildings and long term care facilities.

Simply add one tablet to a 5 Gallon Buddy Jug. Creating 20 quarts of EPA Sanitizer.

Simply add one tablet to a mop bucket to help eliminate bacteria causing odors keeping mops smelling fresh. Works well on any floor finish, will not leave a residue.

Use GK Sanitizer on Tables, Floors, Equipment, or any hard surface. Restaurant and Kitchen.

Simply add one tablet to a third sink last up to 24 hours and will not leave a residue.

Simply add one tablet to a mop bucket eliminates smelly mops and kills the bacteria.

## Sanitizing and Disinfecting FROM ENTRY TO EXIT

Add one to a quart spray bottle and create a disinfectant.

**Kills NOROVIRUS in One Minute.**

The 5 gallons of sanitizer created by adding one tablet to the buddy jug is an extremely effective urine and odor eliminator.

Add one tablet dry to all trash cans to eliminate odors. Add liner on top of the tablet.

Remove stains from unclaimed commercial laundry, add one tablet to each gallon of water and soak for a 2 to 3 hours depending upon the stain. The neutral pH will not damage the linens, leaving them soft and clean.

### ADDITIONAL USES:

Add 1 tablet dry per yard size of the container. Reduces odors and keeps away insects.
