**FLAME GARD® TYPE VI
 BAFFLE GREASE FILTERS**

Feature maximum protection against rust and corrosion and a seamless surface that allows constant grease run-off to flow into collection troughs. The safe and dependable positive flame barrier provides added protection against grease fires.

- Furnished with handles
- 2" nominal thickness, 1¾" actual thickness
- Meets NFPA no. 96 criteria and requirements
- Height measurement is direction of baffles

Unique rounded baffle design maximizes grease impingement and easy cleaning.

Note: Dimensions for height and width are nominal—actual dimensions are approximately ½" less. For example, a 20" x 20" filter is actually 19½" x 19½".

TRINE BAFFLE GREASE FILTERS

Resist dents and bending—even if they're dropped!

These heavy-duty filters include attached end baffles that provide greater efficiency and feature double framing.

- Furnished with handles
- Approved by the City of New York Department of Buildings MEA 142-05-E
- Meets NFPA no. 96 criteria and requirements
- 2" nominal thickness, 1¾" actual thickness
- Height measurement is direction of baffles

Note: Dimensions for height and width are nominal—actual dimensions are approximately ½" less. For example, a 20" x 20" filter is actually 19½" x 19½".

- No. 129-2067 25" H x 20" W

KASON® TRAPPER GREASE FILTERS

Patented two-piece construction combines baffle plates and frame into one solid metal unit—no loose baffles to rattle or fall out. Smooth, aerodynamic baffles pick up more airborne grease and promote better drain-off. Strong and lightweight, they're easy to handle, install, and clean. Fully interchangeable with existing filters.

- Furnished with drop handles
- Approved by the City of New York Department of Buildings MEA 133-91-M
- Meets NFPA no. 96 criteria and requirements
- Patent nos. D328,334; D331,963; D336,678
- 2" nominal thickness, 1¾" actual thickness
- Height measurement is direction of baffles

Note: Dimensions for height and width are nominal—actual dimensions are approximately ½" less. For example, a 20" x 20" filter is actually 19½" x 19½".

THE Franklin Filter

These easy-to-clean filters are an investment in hood safety and efficiency.

FRANKLIN FILTER® HINGED HOOD FILTERS

“Cleanliness is...”

- Hinged design allows for
 - easier cleaning
 - the most thorough cleaning possible—like new
 - reduced threat of fire

“A Penny Saved...”

- Unique, slotted baffles reduce static pressure, creating
 - less strain on fan motor
 - greater heat removal
 - quieter operation

- Approved by the City of New York Department of Buildings MEA 1-05-E
- Meets NFPA no. 96 criteria and requirements
- Patent nos. 7571721; 7581539
- ETL Listed to UL-1046 and UL-5649
- ETL Sanitation Listed to NSF standards
- Stainless steel
- Each filter individually boxed
- Height measurement is direction of baffles

**FRYER OIL LIFE
 EXTENDING POWDER
 by MIROIL®**

No. 133-1603

- 72-pack of 8.47 oz of powder
- Used with fryer bag filters

**FRYER
 CRUMB SCOOP**

No. 175-1081

- Designed for use with most fryers
- 2½" H x 2" W x 6" D
- V-shaped scoop
- 20¼" overall length
- Stainless steel

UNIVERSAL SPLASH GUARD

Get your fryer up to code.

This one-size-fits-all splash guard works on most fryers and is within the NFPA No. 96 code. Designed for use on the left or right side of a fryer and is removable for easy cleaning.

No. 133-1563

- 17½" H x 20½" D
- Easy to install, no drilling or bolting on required
- Stainless steel

THE Strainer BOSS™

Stabilizing Cradle for China Cap Strainers and More.

Strain more with less strain.

STRAIN SAFELY

Securely holds straining tools so they don't shift while in use. Safer straining reduces burns caused by splashed hot product; it also reduces potential slip and fall accidents caused by product that has splattered onto the floor. Hands-free operation means more control when processing gravies, sauces, and consommés.

STRAIN PRODUCTIVELY

Turn two-man tasks, such as rice milling and fine straining, into one-man operations. Greater control significantly reduces the time it takes to strain product.

STRAIN ECONOMICALLY

Since china caps and chinois are cradled, stress applied to their handles and hooks is reduced, along with handle breakage. Strainers with broken handles can become useful tools once again.

THE STRAINER BOSS™ STABILIZING CRADLE

No. 280-1979

- Works with any size cone-shaped strainers
- Fits up to 22" OD openings for stock pots, steam kettles, mixing bowls, three bay sinks, and 35 gal receptacles
- Can also securely hold fryer filter cone onto stock pot for easy fryer oil filtration
- Heavy gauge stainless steel

WRAP STATION

Quickly and efficiently wrap sandwiches and other food items. Wrapping paper stays secure and weighted lever allows for single sheet dispensing.

No. 171-1210

- 12" x 12"
- 2⁷/₈" depth
- Stainless steel

DIE-CAST BODY TWIST WASTE WITHOUT DRAIN REDUCER

No. 100-2005

- 2" NPS male connection and 1½" NPS female connection
- 3½" sink opening
- 4⅞" flange diameter
- Can be used with or without 1¼" overflow head and elbow
- Stainless steel drain, flange, and handle
- Nickel-plated

WASTE REPAIR KIT

Contains common replacement parts for all Franklin Machine Products, Barnett Premier, Chicago, Component Hardware Group, Standard Keil, and T&S Brass wastes.

No. 100-1011

- Kit includes: One of each: 3" and 3½" flange washers, Body bushing, Packing nut bushing, Plunger O-ring, Coupling nut washer, Handle O-ring, Twist handle snap rings, Washer

Note: Cannot be used on old style 3976 and 3979 series lever wastes

BRONZE BODY TWIST WASTE WITH DRAIN REDUCER

No. 100-1031

- 2" NPS male connection and 1½" NPS female connection
- 3½" sink opening
- 4⅞" flange diameter
- Can be used with or without 1¼" overflow head and elbow
- Includes nickel-plated brass reducer to convert the 2" male connection to 1½" male connection
- Stainless steel drain, flange, and handle
- Nickel-plated

LEVER/TWIST WASTE TOOL

Heavy-duty tool for removing or installing lever and twist wastes with 2¾" or 3½" slots. Works for both 3" and 3½" sink openings.

THE HARDER LOCK FLUSH VALVE LOCK

Make flush valves harder to steal—help prevent the theft of your toilet and urinal flush valves.

Its unique hinged collar closes securely around the compression nut, creating a barrier to tools. Its inconspicuous design helps the lock blend in with the fixture. Built-in key feature allows for easy installation and removal.

No. 141-2174

- Fits coupling nuts with 5/8" width and 1 3/4" to 2" diameter
- Includes 2 keys and 5/64" hex wrench
- Heavy-duty aluminum

TABLE SHOXS®
SELF-ADJUSTING GLIDES
POINT OF PURCHASE DISPLAY

The automatic wobbly table solution.

Hydraulics makes them 100% automatic so they readjust every time a table is moved. Fully enclosed design prevents crumbs and debris from hindering performance. Patented swivel increases stability and even works on grout lines. Safe on any floor surface, indoor or outdoor.

No. 121-1148

- ¼-20 thread
- 1½" base diameter
- Adjusts itself up to ⅝"
- 400 lb load capacity per set of 4
- Easy installation—no tools required
- Includes 18 packs of 4

SUPERLEVEL®
SELF-ADJUSTING GLIDES
POINT OF PURCHASE DISPLAY

Guaranteed to keep tables and equipment steady without damaging floors. Automatically adjusts tables to uneven floors, even when a table is moved repeatedly. No manual adjustment is necessary.

No. 121-1144

- ¼-20 thread
- Safe for indoor and outdoor use
- 1⅝" base diameter
- Adjusts up to ¼"
- 500 lb load capacity per set of 4
- Includes 18 packs of 4
