

ACH - Automated Clearing House

What is ACH and what are its benefits?

How does ACH work?

The Automatic payment can be made based on two different criteria:

- Invoice Due Date
- Selected Day of the Week

Whichever method you choose, an email will be sent to you the day before the payment is drafted from your account. The email will list the invoice date, number and amount. If there are multiple invoices they will all be listed.

Why should I use ACH and how can it save me time and money?

- No more having to take the time to write out a check.
- Never be past due again. Your funds are auto-deducted based on terms agreement with US Foods.
- No Checks, No Stamps, No Envelopes, No Hassles!
- Enables the ability for you to be on Dark Drops.

How do I get started?

- Reach out to your US Foods representative to have a conversation which method you would prefer.
- Fill out and submit the [ACH Auto-Deduct Direct Debit Enrollment](#).

ACH - Automated Clearing House

What is ACH and what are its benefits?

All ACH Advantages

Consistent Cash Flow Control

The timing of payments posted to your bank statement can vary with paper checks. ACH is electronic and automatic which brings consistency to your bank account.

Efficiency

With an ACH payment, your driver can focus on completing efficient deliveries...the payment transactions become automatic.

Convenience

With an automated payment, you don't have to take time to write a check. If you travel on business frequently, you have peace of mind, knowing that your bills are being paid even when you're away from home.

Safety

ACH provides a payment option that eliminates the need of your driver to carry cash and checks throughout their delivery route. The safety of everyone in the process is important to us.

Reduced errors

With an automated payment, the amount debited automatically equals the amount of your invoice less any credits you receive.

Security

ACH transactions occur electronically and dramatically reduces the number of individuals who have access to personal or financial information. ACH transactions are electronic with no checks to be misplaced, lost in the mail or stolen.
