

US FOODS® E-COMMERCE AND TECHNOLOGY OFFERINGS

WE HELP MAKE IT EASY TO ORDER ONLINE

One platform. Integrated solutions. Complete control.

US Foods® e-commerce platform simplifies your online ordering, enabling you to customize your preferences and find what you need quickly. With our easy ordering experience, you'll receive:

EASY ONLINE ORDER

Order as you prefer, using customized lists, product numbers or our catalog of thousands of available products.

RICH PRODUCT CONTENT

Includes images, nutritionals, marketing descriptions, allergens and more.

INSTANT EMAIL ORDER CONFIRMATION

Immediate email confirmation when the order is submitted, edited or cancelled.

MORE ACCURACY MORE OPTIONS

With helpful prompts and an intuitive platform, US Foods® Online provides more tools to help you order exactly what you need.

COMPARE PRODUCTS

Easily compare multiple products to help you make an informed decision. Print, share or download all product details associated with the selected products for nutritional and allergens.

ELIMINATE ERRORS

Receive notifications when you order unusual quantities or input duplicate digits. Get reminders when you may have forgotten an item. Find your most important items first on the order entry screen.

PERSONALIZE LANGUAGE

Convert US Foods Online content to one of 10 different languages using Google Translate®: Arabic, Chinese, Dutch, French, German, Italian, Korean, Polish, Spanish and Vietnamese.

LIST MANAGEMENT

Placing orders is a critical function, and we strive to make that process as easy and intuitive as possible. List management features make it easy to stay organized and ensure you have everything you need for your operation. Lists are designed to help you place quick, accurate orders and easily calculate the value of inventory on your shelves.

US Foods® Online allows you to create custom lists, making ordering easy.

- Shelf to sheet: Match the order of your store rooms
- Day-of-the-week specific: Tuesday list/Thursday list
- Event specific: Thanksgiving, anniversary, etc.
- Location specific: Deli, employee feeding, etc.

PERSONALIZATION

Find key products with ease, simplify bookkeeping and inventory, find product promotions and get product suggestions that increase your bottom line.

PROMOTIONAL SUMMARY PAGE

Access your personalized advertising promotions in product lists, search results, product detail pages, notification bar and Our Exclusives page/drop-down menu.

CUSTOM PRODUCT GROUPING

Assign General Ledger codes by US Foods® product hierarchy and to all locations with one click. GL codes will be instantly applied to every invoice, order guide and product search result.

SUGGESTED PRODUCT SAVINGS

Request that your locations be alerted to preferred products and associated cost savings. Once selected, the original product will be removed from all lists and replaced by the preferred product.

ANALYZE AND TRACK PURCHASES

US Foods® puts technologies to work for you that help streamline your business and save you money.

BUSINESS ANALYTICS

Get daily purchase history reports and identify your spending trends with powerful, on-time, personalized data.

KEEP ACCURATE RECORDS

Make real-time invoice adjustments during delivery to ensure clean invoices, fewer credit memos and fewer misdelivered products. View and pay your invoices online as you go – or schedule automatic payments directly from your bank account.

ONLINE INVENTORY

US Foods Online inventory system makes it easy to take and cost out your inventory. Create new inventories, print inventory worksheets, enter inventories and run reports. Create and create and manage inventory general ledger codes.

US FOODS® MOBILE

Get on-the-go access to your business with US Foods® Mobile. Check, edit and create new orders, and track deliveries on your mobile or tablet device. Enjoy a connected experience that allows seamless transition to and from US Foods Online, auto-saving your info even if your internet connection gets dropped. Available for phones and tablets on Android and iOS.

PUSH NOTIFICATIONS

Receive and view push notifications, including alerts for cutoff to submit orders, cutoff to place orders and delivery arrival. Also available through your Apple watch, which requires US Foods Mobile Application.

WHERE'S MY TRUCK?

Track your order to pinpoint the products en route to your business. Receive an estimated delivery time and an updated, accurate delivery time when the driver departs from the previous account.

MY ACCOUNTS

Coming soon to all customers: pay via the new My Accounts application.
