

## **COST MANAGEMENT SOLUTIONS FOR HEALTHCARE FOODSERVICE**

In the last 10 years, US Foods® has documented more than \$950 million in cost savings for our customers when they are fully engaged with our business solutions. Together with our experts, our business solutions help you develop a customized road map to discover new ways to reduce costs, improve labor and staffing and boost revenue flow.

### **BASELINE®**

Baseline® is how we gather the information needed for financial analysis, then help you interpret the data to create an action plan that saves on costs, grows revenue and enhances productivity.

### **TRENDVIEW® 360**

Trendview® 360 analyzes variances in your costs, compares facility performance and zeros in on categories and specific products that are causing negative trends and driving cost shifts.

### **PRODUCT STANDARDIZATION**

We can review your purchases and identify opportunities where you can achieve more savings with your contracted agreements. The higher the participation level in manufacturer agreements, the greater the savings.

### **LEANPATH**

Leanpath can reduce kitchen food waste by 50%. It measures and analyzes your food waste in order to discover waste prevention opportunities, which in turn saves you money.

### **FINANCIAL OPERATING REPORT™**

This easy-to-use tool enables you to track meals, expenses and productivity; organize your monthly financial information and provide trend reports to help with action planning.

### **MASTER LIST MANAGEMENT**

Standardize and maximize your contracts with visibility into contracted products, division stocking status and the power to make informed decisions, instantly.
