

SERVE GOOD® PORTFOLIO

FOOD & BEVERAGE

The Serve Good® program represents our continuing effort at US Foods® to serve delicious food while serving the greater good. Every Serve Good product comes with a claim of responsible sourcing or contribution to waste reduction, or is produced or manufactured to help reduce greenhouse gas emissions. Each Serve Good product is packaged according to our Serve Good packaging standards.

Serve Good products come with either a third-party claim, a regulatory claim or a claim that is defined and verified by US Foods. Most claims fit into one of the following categories: organic, non-GMO, sustainable seafood, animal

care, responsible disposables, waste reduction or climate-conscious.

Additionally, our Progress Check® initiative, designed specifically for the seafood category, highlights those vendors on the path toward certification. It's just another way we're helping operators lean into the more responsible choices consumers are making every day.

See our Serve Good product portfolio below, and for more information on the program, **visit usfoods.com** or **contact your US Foods representative.**

SERVE GOOD® PORTFOLIO

RESPONSIBLE DISPOSABLES

With our Serve Good® responsible disposables lineup, US Foods® is answering the evolving sustainability demands of foodservice operations. From satisfying a new era of eco-conscious diners to helping operators cut waste and costs, these products provide disposable options that are biodegradable, made from recycled materials or conserve water, and are made with respect for people and the planet – all with the reassurance of verification from third-party certifiers.
