Greenhouse Gas Emissions and Targets

Updated January 2024

US Foods' Greenhouse Gas (GHG) Emissions and Targets

TARGETS

US Foods is committed to the following greenhouse gas (GHG) emissions reduction goals, which were approved by the Science Based Targets initiative (SBTi) in 2022:

- **To reduce absolute scopes 1 and 2 GHG emissions 32.5% by 2032 from a 2019 base year**
- **That 67% of its suppliers by emissions covering purchased goods and services will have science-based targets by 2027**

US Foods' commitment to engage with its suppliers to set targets will support its continuing efforts to create environmental awareness in its industry and to consult with stakeholders on environmental issues.
