# RESPONSIBLE DISPOSABLES AND CLEANING SUPPLIES

From pleasing a new era of eco-conscious diners to cutting waste, sustainability is becoming more essential to your business than ever.

That's why at US Foods® we launched our Serve Good® program. Every product in the award-winning Serve Good portfolio is sustainably sourced or contributes to waste reduction, and all of our responsible disposables come with the reassurance of third-party certification.

Monogram®, our exclusive brand designed for all your disposables and cleaning needs, is proud to offer a wide selection of responsible disposables and sustainably sourced cleaning supplies in the Serve Good program – made from materials that are certified as one or more of the following:

- COMPOSTABLE
- MADE FROM RECYCLED CONTENT
- BIOBASED
- CONTRIBUTES TO WASTE REDUCTION
- FAIR TRADE CERTIFIED™
- RENEWABLE

In this catalog, learn about our lineup of Monogram products within the Serve Good assortment, as well as those items' benefits and certifications. For more information about Serve Good, visit [usfoods.com/servegood](https://usfoods.com/servegood)

# WHAT IS COMPOSTING AND WHY SHOULD I DO IT?

Composting is a simple way to repurpose various organic materials that are otherwise thought of as waste. It produces a nutrient-rich soil conditioner called *compost* – a fertilizer and natural pesticide that helps with erosion control, land and stream reclamation, wetland construction and landfill cover. *Composting reduces landfill waste and nourishes the environment.*

**Composting is so easy that you only need a little information to get started.**

## WHICH FOODSERVICE-RELATED ITEMS ARE COMPOSTABLE?

### COMPOSTABLE

- Kitchen trimmings
- Plant waste
- Food scraps
- Coffee grounds
- Tea bags without staples
- Disposable products that are certified as compostable by the **Biodegradable Products Institute (BPI)** or the environmental solutions company **Cedar Grove**

### NOT COMPOSTABLE

- Bones
- Chemicals
- Metal
- Glass
- Plastic film that's not plant-based
- Textiles
- Treated wood or printed paper (these products may contain unwanted chemicals)
- Ashes from the grill

## WHICH DISPOSABLES ARE COMPOSTABLE?

To replace non-compostable plastic and foam disposables with compostable items from our large and growing Serve Good® line, talk with your US Foods® representative and review the pages of this brochure.

**Compost your packaging,** too. Look for the *How2Compost* label on our products. Get details at [usfoods.com/why-us-foods/serve-good/recycle-and-compost-product-packaging.html](https://usfoods.com/why-us-foods/serve-good/recycle-and-compost-product-packaging.html)

## HOW DO I COLLECT MATERIALS TO BE COMPOSTED?

It's easy. You'll just need:

- **Bins** that are labeled and color-coded for compostable materials – separate from trash and recycling bins
- **Signs** to remind employees what items go in which bins
- **Time** to train your staff: make sure they know what's compostable and what to do when the bins get full

## WHERE DO I TAKE THEM?

There are composting facilities all over the country. Find the one nearest you at [findacomposter.com](https://findacomposter.com)

Look into your state's composting rules at [compostingcouncil.org/participants](https://compostingcouncil.org/participants)

## I'M COMPOSTING. NOW WHAT?

Tell people! With eco-consciousness gaining popularity, your patrons know how important it is to create and maintain a small carbon footprint. Let them know that you share their concerns, and tell them how you're working to protect the environment. Announce it online, on your menu and in your advertising materials.

# MONOGRAM® PRODUCTS – CERTIFICATIONS

All of our Monogram products within the Serve Good® program feature verification from one or more of the third-party certifiers below:

## ECOLOGO® Certification

ECOLOGO Certification reinforces credibility of sustainable product claims through robust certification, validation and testing services. UL's ECOLOGO standards offer both environmental leadership and human health and safety criteria that are scientifically developed, multi-stakeholder reviewed and robustly vetted.

## Green Seal®

Green Seal, a nonprofit founded in 1989, provides science-based environmental certification standards that are credible, transparent and essential to helping manufacturers, purchasers and consumers make responsible choices that positively impact business behavior and improve quality of life.

## SFI – Sustainable Forestry Initiative®

The Sustainable Forestry Initiative (SFI) is a non-profit organization that focuses on sustainable fiber sourcing. This fiber is tracked through a chain of custody from certified forests in North America down through the printing of corrugate cases by SFI-certified printers.

## FSC® – Forest Stewardship Council®

The Forest Stewardship Council (FSC) is a non-profit organization that promotes the responsible management of the world's forests. This certification states that the fiber sourced from forest down through the manufacturing of a corrugate case has been properly managed socially, economically and environmentally, per FSC guidelines, through a chain of custody.

## USDA BioPreferred® Program

Managed by the U.S. Department of Agriculture (USDA), the goal of the BioPreferred program is to increase the purchase and use of biobased products, or products derived from plants and other renewable agricultural, marine and forestry materials. Within the BioPreferred program, these products do not include food, animal feed or fuel.

## Fair Trade Certified™ Cotton

Fair Trade Certified products are made with respect for people and the planet. Their rigorous social, environmental and economic standards work to promote safe, healthy working conditions, protect the environment, enable transparency and empower communities to build strong, thriving businesses.

## Biodegradable Products Institute (BPI)

The BPI is a professional non-profit with the goal of scalable diversion of organic waste to composting, by verifying that products and packaging will successfully break down in professionally managed composting facilities, without harming the quality of that compost. BPI accomplishes this by operating North America's leading certification for compostable products, providing a system for making valid claims based on scientific standards, ASTM D6400/D6868 for commercial compostability.

## Cedar Grove

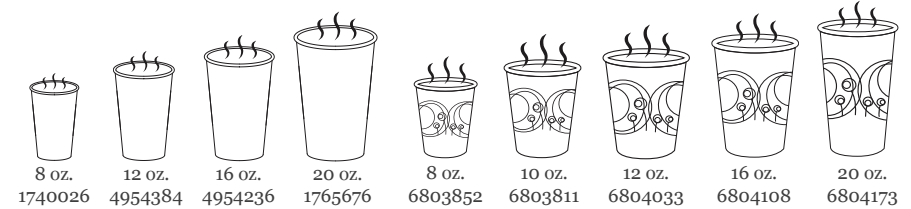

Cedar Grove is committed to supporting sustainability and encouraging the use of durable (reusable) food service items. If disposables must be used, Cedar Grove supports the use of compostable products that facilitate capturing food scraps that would otherwise be wasted in a landfill. All products shown on our accepted list have met our technical review and/or field testing requirements.

# HOT CUPS AND SLEEVES

Some of the products in our wide range of Monogram® hot cups and sleeves in the Serve Good portfolio are made from 100% recycled content and compostable material, and are manufactured without chlorine compounds. Many include certifications from one or more of the following: the Sustainable Forestry Initiative® (SFI), the Forest Stewardship Council® (FSC®) and the Biodegradable Products Institute (BPI).

# COMPOSTABLE STRAWS

Monogram® compostable straws are ideal for cold drinks, here and to go. As part of the Serve Good® portfolio, these straws are responsibly sourced and can help contribute to waste reduction when properly disposed of. These products are variously certified by the Forest Stewardship Council®, Cedar Grove and Biodegradable Products Institute.

# TOWELS AND CUTLERY

Monogram® towels and cutlery included in the Serve Good® portfolio are certified by the Biodegradable Products Institute (BPI) as compostable, supporting sustainability efforts in your operation. Choose from our wide range of towels, which have a soft, cloth-like feel because they're made from natural, plant-based fibers that are also stronger and more flexible than comparable cotton napkins. Many of these items are also certified by the Sustainable Forestry Initiative® (SFI) and/or the Forest Stewardship Council® (FSC®) for sourcing.

# NAPKINS

Monogram® napkins included in the Serve Good® portfolio have a soft, cloth-like feel because they're made from natural, plant-based fibers that are also stronger and more flexible than comparable cotton napkins. Our napkins are certified by the Biodegradable Products Institute (BPI) as compostable, to support waste-reducing efforts in your operation, and many are also certified by the Sustainable Forestry Initiative® (SFI) and/or the Forest Stewardship Council® (FSC®) for sourcing.

# TRAYS AND TRAY COVERS

Monogram® trays and tray covers included in the Serve Good® portfolio are certified by the Sustainable Forestry Institute (SFI), signifying that more than 66% of materials used are derived from certified and responsibly managed forests. Some of these products also come with Cedar Grove certification as compostable in commercial composting facilities.

# MOPS AND HANDLES

In an industry first, Monogram® mops included in the Serve Good® portfolio are made with Fair Trade Certified™ cotton, meaning that farmers earn a premium for their certified cotton to invest in social development projects and improve livelihoods in their communities. Additionally, our mop handles are certified by the Sustainable Forestry Initiative® (SFI).

# PIZZA BOXES

No matter the size or style of pizza, Monogram® has a box that fits. Sturdy, leak-resistant and designed to keep pizzas warm, these boxes – all part of our Serve Good® portfolio – come in four designs that allow operators to choose the best fit for their needs. All are made from materials certified by the Forest Stewardship Council® (FSC®) and the Biodegradable Products Institute (BPI®).
