

# THANK YOU HEALTHCARE HEROES

Healthcare workers are heroes – especially in these challenging times. Whether it's the food and nutrition team, or doctors and nurses, these brave team members put in long hours and risk their own health to help their communities. As concerns about spreading COVID-19 continue, make sure they get the encouragement, support and essential needs they require. Below are a few ways you can give them your thanks.

## EMPLOYEE ON-SITE GROCERY STORE

Your staff are working tirelessly and may not have the time to shop for basic needs or can't find what they're looking for at local stores. Provide your staff with access to basic needs with an onsite employee grocery store, stocked with personal care items and essential family products.

Find a startup checklist [here](#). You can also download free editable menu templates [here](#). A sample opening order can be located on your ordering platform or through your Account Executive.

## TAKEOUT

Healthcare retail concepts are pivoting to a focus on takeout meals for their staff.

### ADD ITEMS THAT ARE:

- Ready to eat
- Multi-serving dishes/family-style meals
- Take-and-bake
- Products that can be cross-utilized

Ensure that you have the appropriate packaging for takeout items. A variety of available packaging suitable for takeout can be found [here](#). Get creative with meal kits that can be picked up and eaten at home. Download a digital menu template to post on your website and utilize social media channels to promote your offerings to staff. Templates are available to download [here](#).

## EASY PREPARED MENU

As staffing is reduced and operations change, you may need a menu based on convenient, easy-to-prepare items. The menu consists of items or dishes that require minimal food prep time.

### RESOURCES INCLUDE:

- Week at a Glance example menu [here](#)
- Recipe files
- Shopping list with suggested product numbers
- Substitute recipes with shopping list and suggested product numbers
- Nutritional analysis

## EMPLOYEE CARE PACKAGES

Employee care packages are a way to provide staple items to employees so they don't have to stop at the grocery store on their way home or shop empty shelves at the local store.

These can be distributed at the end of every shift, or every other day, etc. A shopping list guide with all suggested products can be found on your ordering platform or through your Account Executive.

Please contact your US Foods representative for additional assistance and information.
