IMPROVE BUSINESS WITH
CARRYOUT AND DELIVERY

DELIVERY AND TAKEOUT

OPPORTUNITY IN THE GROWING DEMAND FOR SAFETY AND CONVENIENCE

As your business recovers in the post-Covid-19 world, you want to make diners feel secure and safe whether they're eating on-premise or off. Because not all consumers are ready to jump back into dining in, having the right takeout and delivery products is essential. Make sure you have the quality containers and tamper-proof seals you need to fulfill carryout orders while instilling confidence.

Operators who respond to carryout and to-go demand can dramatically improve their bottom line. This makes first-rate takeout packaging essential, so that dishes retain their quality, integrity and temperature, door to door.

That's a tall order, but you're not in this alone. Ready with expert guidance, industry-leading business tools and the right products for every application, your partners at US Foods® are here to help you make it.

CAPITALIZE ON DINING TRENDS

TAKE IT FROM THE FOOD FANATICS® CHEFS

SEASONED PROS FROM ACROSS THE COUNTRY SHARE THEIR TAKEOUT/DELIVERY WISDOM

MARIA O'ROURKE
JACKSON, MS

"When our customers are developing takeout menus, I put the proposed dish in the intended takeout container, then leave it on the counter or in a car for one hour. They taste and experience it as their customers would. Many of these items don't make it to the final menu!"

STEPHEN AFFLIXIO
TAMPA, FL

"Use pre-printed labels with simple, concise reheating instructions, and put reheatable items in microwaveable or oven-safe containers."

LEIGH HOLLAND
ALTOONA, PA

"If you fry it, vent it. Fried items for takeout need to be in containers with vented holes in the lid. Steam from hot fried foods creates moisture inside the container. If that steam has no way to escape, you end up with soggy food."

DARRIN MCKILLIP
RENO, NV

"When you're making grilled protein salads, package the hot protein separately, so that the lettuce is still crisp when eaten."

ANGEL JOY-ROGER
PHOENIX, AZ

"When choosing containers, go with something durable for your food. There's nothing worse than boxing up food and having it fall out the other end."

ERIN GONZALEZ
PLYMOUTH, MN

"Deli-style containers are the perfect carrier for liquid items like soup or ramen. They come in many sizes with a universal lid, and they're stackable."

AARON GREGORY
SPRINGFIELD, MO

"Instead of just using a marker to label carryout containers with their contents, create custom labels that include your restaurant's logo."

THOMAS MACRINA
PHILADELPHIA, PA

"Put hot soup in the proper container and make sure to pack the bag to keep the soup from falling over."

SAFETY FROM UNCONTROLLABLE TEMPTATION

Imagine your favorite hot food, aromatic and delicious, packaged on the car seat next to you. It's irresistible – and any delivery driver could agree. As a restaurant operator, you may never know if delivery orders reach their destinations safely, in full quantity. But your customers can know, so keep them informed and safe. Protect your business, your food and your patrons with tamper-evident packaging.

34%

(ONE THIRD) OF CONSUMERS SAID TAMPER-PROOF SEALS ON CONTAINERS OR BAGS WOULD MAKE THEM FEEL MORE COMFORTABLE ABOUT ORDERING FOOD FOR DELIVERY AFTER SHELTER-IN-PLACE RESTRICTIONS HAVE BEEN LIFTED.

32%

OF CONSUMERS SAY TAMPER-PROOF SEALS ON CONTAINERS OR BAG ARE THE MOST CRUCIAL PACKAGING ELEMENT RIGHT NOW
(Datassential Consumer OneTable, Pg. 57)

GIVE YOUR CUSTOMERS CONFIDENCE IN THE FOOD THEY'LL ENJOY

When a food bag or box is opened, our Tamper Evident Label separates into pieces, which can indicate tampering. This pressure-sensitive seal fits a wide variety of takeout containers and bags.

- 2" round label
 - Good initial tack continues to hold onto the substrate
 - The word "Enjoy!" on the label invites customers to dig in with confidence
- The label's green color indicates freshness and safety
 - Features slits for security

BE SURE THAT YOUR CARRYOUT CONTAINERS STAY SAFELY SEALED

When a 32-oz. Tamper Evident Container has been opened even once, the seal is noticeably, permanently broken. Close the lid to lock it; tear the hinge to open it. It's that easy.

- Easy-closure, one-piece hinged design
 - "Do Not Purchase If Hinge Is Torn" message on lid
 - Recessed stacking platform helps keep stacks stable
- Made with clear, recyclable PET with minimal sidewall ribbing
 - Ideal for cold applications

TAKEOUT TIPS FROM CHOWNOW

THE ONLINE ORDERING EXPERTS SHARE HOW IT'S DONE

- 1 Make it easy for your customers to order on your website.**
Put a big, easily identifiable "Order Now" button where they can see it right away – because if they can't recognize how to order within their first 15 seconds on your site, they'll move on.
- 2 Feature your most unique and profitable dishes.**
Create a "Popular Items" category at the top of the menu, and list items that are not only in demand but among your most profitable.
- 3 Influence your patrons' food choices using menu descriptions.**
Choose words that evoke specific positive feelings or associations. Familiar examples include "Grandma's Chicken Soup" and "Locally Sourced Root Vegetables."

- 4 Make your online menu a powerful upseller.**
Below each entrée listing, add an option such as "Complete Your Meal" or "Pair It With," and suggest tempting additions.
- 5 Address ever-changing food trends by adjusting your online menu.**
In January, for example, highlight health-conscious options. Capitalize on vegan or vegetarian trends by offering "Meatless Mondays."
- 6 Ensure easy on-site pickup.**
When new customers order online – whether they're picking up inside or curbside – streamline the pick-up process. Designate your pick-up area with an attractive, highly visible sign.
