Today, people expect more from menus and their restaurant experience. And you can expect more from us. We're constantly introducing innovative new food and menu items, designed to please the diverse needs and trend-driven appetites of today's diners. Plus, we'll introduce you to products that save you time in the back-of-house and make running your restaurant easier.

Scoop™, our product innovation program, brings you unexpected new products, application ideas and behind-the-scenes insight designed to inspire you. Our Exclusive Brands connect you to an unequalled breadth of ingredients: high-quality essentials, responsibly sourced items, local produce, global specialties and more. So, you can make your menu everything you want it to be.

Relying on US Foods® means you'll never be short on expertise. We have a large and diverse team of experts that understands your business and your expectations. US Foods Restaurant Operations Consultants bring you extensive industry experience to help with labor and cost analysis, marketing and menu services, waitstaff training and whatever it takes to help you succeed. Our Food Fanatics® chefs and dedicated sales team are armed with extensive product knowledge and a special focus on keeping your business profitable and growing. Our product specialists are experts in their craft, and most importantly – always there for you.

The right technology can fast-track your operation's efficiency, and it doesn't have to be complicated. CHECK™ Business Tools makes it easy, with solutions recommended for your specific needs.

Together, we'll:

- Turbo-charge your presence online to **drive traffic** from the web through your doors
- **Simplify your staffing** operations, making scheduling and communication easy
- Tackle food costs and managing inventory, **reducing waste** in your operation
