Censea Inc.–Salmonella Class 1 Recall

At a Glance: Censea Inc., a North Brook IL establishment, has issued out a Class 1 recall on Black Tiger Shrimp due to the contamination of Salmonella. The affected product is packed under the APAC Brand, packed in – 6/4# cases and the Lot# 38453NK Date Code 36009V. Per the supplier there are no confirmed illnesses and the contamination was found during random FDA sampling.

The Issue: Salmonella is a bacterium that can cause diarrhea, fever, and abdominal cramps usually within 12-36 hours after exposure. The very young, seniors, and persons with weak immune systems are the most susceptible to food borne illness. Always consult a health care professional if you believe you have contracted a food borne illness. For more information please visit <http://www.cdc.gov/salmonella/>.

Am I Impacted? US Foods' number one priority is to notify any customer impacted by a recall. Our two (2) distribution centers affected by this recall have already begun to contact affected customers. If you purchased a recalled product from us, you will be contacted shortly, or have already been contacted. If you purchased products elsewhere, use the information above to check with your supplier.

Why Do Recalls Expand? Manufacturers expand recalls as they verify their own supply chains. In addition, federal and local governments often do additional product testing that leads to an expansion. US Foods will provide updated Fast Facts as new information becomes available. US Foods will only contact customers IF they purchased recalled products from us.

What You Can Do:

- Avoid eating or serving any recalled products
- Do not use any of these products as ingredients in recipes, even if cooked
- Follow instructions to discard recalled products in a manner that prevents others from eating them.
- Wash and sanitize display cases and refrigerators where potentially contaminated products were stored
- Operators who have processed any potentially contaminated products need to be concerned about cross-contamination
- Wash and sanitize cutting boards, surfaces, and utensils used to prepare, serve, or store potentially contaminated products
- Wash hands with warm water and soap following the cleaning and sanitation process
- Persons who think they may have become ill with a food-borne illness should consult their health care providers
- For food safety questions call FDA at 1-888-SAFEFOOD (Mon-Fri from 10- 4 PM EST) or go to <http://www.fda.gov/default.htm>
