Pinnacle Foods Inc – *Listeria monocytogenes* -Class 1 Recall

At a Glance: Pinnacle Foods Inc., a Parsippany, NJ based company, issued a Class 1 recall on all “Best By” dates of Aunt Jemima Frozen Pancakes, Frozen Waffles & Frozen French Toast Slices distributed in the United States and one product into Mexico because they have the potential to be contaminated with *Listeria monocytogenes*. Per the supplier no illnesses have been reported. Pinnacle Foods initiated the recall after testing indicated the presence of *Listeria monocytogenes* in the plant environment where the products are made.

The Issue: *Listeria monocytogenes* is an organism that can cause serious and sometimes fatal infections in young children, frail or elderly people, and others with weakened immune systems. Although healthy individuals may suffer only short-term symptoms such as high fever, severe headache, stiffness, nausea, abdominal pain and diarrhea, listeria infections can cause miscarriages and stillbirths among pregnant women.

Am I Impacted? US Foods’ number one priority is to notify any customer impacted by a recall. US Foods has already begun to contact affected customers. If you purchased a recalled product from us, you will be contacted shortly, or have already been contacted. If you purchased products elsewhere, use the information above to check with your supplier.

Why Do Recalls Expand? Manufacturers expand recalls as they verify their own supply chains. In addition, federal and local governments often do additional product testing that leads to an expansion. US Foods will provide updated Fast Facts as new information becomes available. US Foods will only contact customers IF they purchased recalled products from us.

What You Can Do:

- Avoid eating or serving any recalled products
- Do not use any of these products as ingredients in recipes, even if cooked
- Follow instructions to discard recalled products in a manner that prevents others from eating them.
- Wash and sanitize display cases and refrigerators where potentially contaminated products were stored
- Operators who have processed any potentially contaminated products need to be concerned about cross-contamination
- Wash and sanitize cutting boards, surfaces, and utensils used to prepare, serve, or store potentially contaminated products
- Wash hands with warm water and soap following the cleaning and sanitation process
- Persons who think they may have become ill with a food-borne illness should consult their health care providers
- For food safety questions call FDA at 1-888-SAFEFOOD (Mon-Fri from 10- 4 PM EST) or go to <http://www.fda.gov/default.htm>
